

Asset Protection-Preservation Seminar

- NOVEMBER 27 at 6:00-8:00 P.M. -

*Attend this seminar to
take control of your
financial future*

Marin General Hospital is proud to present to our local physicians Rocco DeFrancesco, JD, (author of The Doctor's Wealth Preservation Guide and Retiring Without Risk), who will give a 2 hour seminar on how to **protect** and **preserve** your assets from "all" creditors (patients, the IRS, and downturns in the stock market, etc.).

The seminar will cover...

- How to avoid typical estate planning mistakes that can cost your heirs millions of dollars depending on the size of your estate.
- How the "lawsuit explosion" affects your practice, your health, and your family.
- How to become the "ugly defendant" and discourage lawsuits from being filed.
- Various asset protection strategies to protect your wealth from "all" creditors.
- Income tax reduction tools to reduce your income taxes.
- Stock market protection tools where your money will never go backwards due to stock market losses and where gains are locked in on an annual basis.
- How to fund financial tools that will guarantee you a 7% rate of return coupled with a guaranteed income for life.
- How to grow wealth in a tax-free manner where the money can also be removed income tax free in retirement.
- How to pay off your mortgage 5-10-15+ years early with a plan that will not require you to change your lifestyle and where there is no downside risk to implement it.

Fill out and send this form to:

Joe Smith
Marin General Hospital
1212 Michigan Ave.
San Diego, CA 12345
